

Our Promise

If you want a workshop you can trust, the highest quality of repair on almost any vehicle, at a fair rate, your car repaired on time and service with a smile, then choose Pirongia Action Automotive.

Our motto- "We do it all".

Our Guarantee

That we will contact you if more work than anticipated is required.

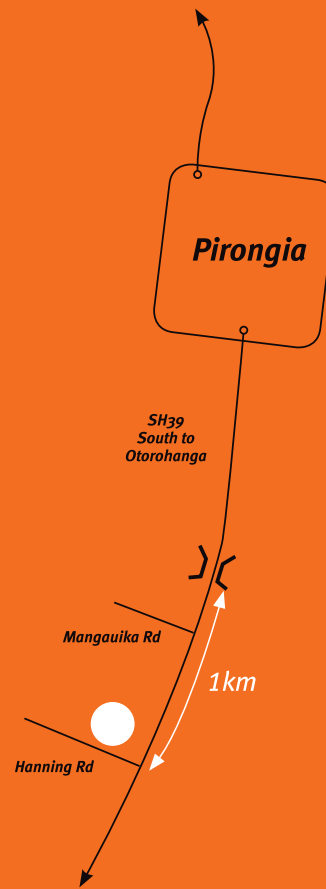

That we can pick up and drop off your car within a 10km radius.

If we get parts or tyres for a special price, we pass the savings on to you.

To let you know about upcoming future repairs that we come across while working on your car.

If it's not sorted and it's our fault we will fix it at our cost.

Our workmanship.

Message from the crew

We'd like to give a very warm welcome to our new Te Pahu clients. We have recently marketed in this area, due to the workshop closing down over there and we are getting a great response. We'd also like to thank our existing clients for their continued support over the years. We are getting very busy so we would like to remind clients to book their vehicles in for work since, these days, our booking diary is usually full two or three days in advance. Take care driving on the roads during winter.

Who's who at Pirongia Action Automotive

Grant & Colette Burr
Business Directors

Sara Breyley
Administration Manager

James Hebbend
Service Manager

Robert McWha
Head technician

Ashleigh McMonagle
Apprentice Technician

Safe Driving Tip

Winter is upon us again. We are concerned by the amount of vehicles we see at the workshop with tyres well below a safe level of tread, wheel alignment problems causing premature tyre wear and most importantly- under-inflated tyres. If you are not sure about your tyres please ring us or call in for a chat. Think WINTER SAFETY for you and your family.

Yes we do it all- and even light engineering!

A further string to our bow, that not everyone realises, is that we do light engineering in our workshop and on site ie, at your farm.

Our mobile truck, which was how Pirongia Action Automotive started, is set up with a generator, welder, compressor, drills, grinders, a very comprehensive set of tools and anything else you may require to do just about any fix-em-up job you can think of.

In the workshop we have done a wide variety of jobs such as: mending wheelbarrows, rebuilding trailers, feed-out wagons, horse floats, making farm gates to suit specific purposes, mending silage forks, repairing and improving palm kernel feeders. If you have an equipment failure we can discuss repair options and how to make it better/ stronger or more improved. Grant is a firm believer that when something breaks, it can be improved to make it stronger.

On the farm we can also repair a wide variety of gear and equipment. Why put up with steel gates with broken hinges, no latches and rusted out corners? It's reasonably quick and simple to cut out the old pipe and weld in new pipe as required, to make your gates and pipework as good as new again. Rusty steel- no problem! We can normally just cut it out and replace with new steelwork. You'll be surprised with what we can do with a cut-off disk, a grinder and a welder.

Car care tip

Dull plastic headlights can reduce your headlight intensity by up to 70%. That's a lot!!! There is a new product on the market that we have trialed which recoats the outside of your polycarbonate (plastic) headlight lenses. The lights we have used it on so far have come up like new, after the treatment. We have been very impressed by this product and are excited about its potential in the automotive industry.

STOP PRESS!

There is a fantastic new business in the Hanning Hub. Pirongia Car Surgeons is a panel repair business. Mark Wheeler is doing a great job in many aspects of panel and paint repairs. This business is situated adjacent to our workshop and we endorse his workmanship since have used his services on many occasions. Mark can be contacted on 022 659 2195

Services available

- WOFs
- LARGER range of Tyres at very competitive prices
