Message from the crew

We hope 2016 is treating you well. We have had a fantastic start to the New Year.

Lucien and Lewis have started- our 2 new apprentice technicians (one a bit older than the other). Lewis has won a 'Kick Start' Scholarship through MITO, which pays for his first year of fees. We can put that money towards helping Lewis pay off his tools.

Jarrold is busy overseeing both the guys and is doing a great job of educating and encouraging them. He is also up-skilling and is doing an Auto Electrical Apprenticeship this year.

Sara is back in the office after surgery and is pulling the office back into shape. We are pleased to report she is fit and well. And finally.....after many months of searching.....we have appointed a Service Manager- Dave Sisley. We are delighted to have Dave back in the team and we're looking forward to the exciting year ahead.

Annual WOFs- What We're Finding

It's been just over 12 months since the final regulation change for WOFs took place. We're quite fortunate that we have a high standard of vehicle in the area with the majority of customers being more proactive with maintaining their vehicles. However we are finding a lot of light failures, wiper failures and tyres below the minimum tread requirement. Customers who are utilising our 6 month (mid WOF) safety check are more proactive at picking up issues before they occur. This has a 2 fold advantage to the customer in that we can spread the financial implication whilst keeping their car safe on the road.

While the vehicle is in for its safety check, we are also monitoring service intervals and battery condition. We have found that servicing your vehicle regularly is far cheaper than waiting until it's too late- and the vehicle needs major repairs. We are finding that most of our clients require a service about every 6 months due to the kms they do. We are ringing clients at this time (6 months after the previous service) as a reminder and are delighted that many clients are taking this opportunity to get their service done.

It is still quite surprising to see how many vehicles are being driven with blown headlight bulbs. A good tip for checking your headlights is when you drive up to your garage door or into your garage- just flick your headlights on and check them on both high and low beam.

Please remember that it is up to the vehicle operator (the driver) to ensure that the vehicle is up to WOF standards at all times. Winter is just around the corner- BE SAFE.

Car Safety Tip

Pre-winter essentials: Check WIPERS, WINDOW WASHERS< LIGHTS AND TYRES.

If you aren't sure we are only a quick visit away!!!!

Our most excellent Maxxis MAP1 car tyre has been superseded by the new and improved Maxxis MAP3. It's still early days but initial feedback is very positive and pricing relatively similar to the MAP1.

Buyer beware tip

We can't emphasise enough about how important it is- for your piece of mind and your pocket- to have a PREPURCHASE INSPECTION carried out before you purchase a vehicle- regardless of who you are buying the vehicle from. We have, in the past, discovered many faults in vehicles that customers weren't aware of.

In some cases the client has chosen not to purchase the vehicle and in others they have used the report to negotiate a reduced price or have the faults rectified before purchase.

For sale/Wanted to buy

Let us know if you have a vehicle for sale or you wish to purchase one. We have recently matched up several cars with new owners. We can also put your For Sale or Vehicle Wanted details on our notice board.
